Alkali in Soap Bad for the Hair

Soap should be used very carefully. If you want to keep your hair looking its best, most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mulsified coconut oil shampoo (which is pure and grassless), and is better than anything else you can use.

Two or three teaspoonfuls of Mulsified in a cup of water with a little warm water is sufficient to cleanse the hair and scalp thoroughly. Simply rub the hair with water and rub it in. It makes an abundance of rich creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, soft and easy to manage.

Does not get Mulsified coconut oil shampoo at any pharmacy, it's very cheap, and a few cents will supply every member of the family for months. Be sure your druggist gives you Mulsified.—Advertisement.

June Showers Cost Rain Insurance Companies More Than \$500,000.

By the Associated Press.

NEW YORK, July 7.—Rain insurance companies, that guarantee fair weather for base ball clubs, resort hotels, hot-dog vendors, golf players and vacationists, got an awful wallop throughout the month of June and an even worse blow during the prolonged week end, which many stretched over four days to properly celebrate the Fourth of July.

The four big companies engaged in this business, which has been growing rapidly in the United States for the last eighteen months, paid out more than \$500,000 to policyholders protected against bad weather over the Independence day period, brokers estimated today.

On Sunday, July 2, almost every square mile of land within 200 miles of the Atlantic coast was rained upon. The entire Gulf coast country was sprinkled and considerable parts of east Texas, Arkansas, Kentucky, southern Indiana, Ohio and middle Pennsylvania received a wetting.

July Fourth was almost as bad. Draw a snaky line from the levees at New Orleans to the rock-ribbed coast of Maine. It rained July Fourth on all the country east of that line.

The big hotels on the Boardwalk at Atlantic City had nearly all taken out rain insurance for the holiday period. Concessions along the beach were similarly protected. The Giants at the Polo Grounds had a \$30,000 policy last Tuesday. There were only three days of June in New York when the weather was fair.

COLORED WOMEN SHOT; NEGRO SUSPECT HANGED

Officers Investigate Action by White Mob Which Broke Into Louisiana Jail.

By the Associated Press.

SHREVEPORT, La., July 7.—Officers of Bossier parish continued their investigation today of the lynching early yesterday of Joe Pemberton, negro, who was taken from the parish jail at Benton by a mob of white men, after it had overpowered Deputy Sheriff J. M. Wilson. No clue to the identity of any of the men composing the mob had been found early today, officers said.

Pemberton's body was found several hours after he had been taken from the jail, swinging to a tree in Black Bayou swamp, two miles from Benton. He had been placed in the jail Tuesday following the shooting of two negro women.

Mr. Mackall said he did not fear the state would lose much tax, as some of the companies which are strictly complying with the law are keeping a close eye on their competitors to detect evasions.

BARCELONA, Spain, July 7.—The provincial governor, in consequence of a report that certain twelfth century mural paintings in the Church of San Baudelo are about to be removed for transfer to

The paintings at present remain in the church, although one has been removed from its position and another is covered in readiness for removal. The conservation of national monuments has gone to Madrid to inform the minister of fine arts of the governor's action.
